Water Management Policies

Water management and conservation policy of St. Paul Teachers' Training College Birsinghpur, Samatipur encompasses policies, strategies and activities designed to manage water sustainably to meet current and future demands in the campus. The institute has been implementing number of national guidelines to conserve and manage water resources in the campus.

College encourages all its stakeholders to support policies and programmes for water conservation that would achieve a sustainable balance between demand, management, and reduce waste through accurate accounting of water.

In the Planning and implementing water strategies, a balanced approach is needed that maximize opportunity to align with multiple objectives

- Campus engagement through, water conservation education to all stakeholders through lecture, poster, rallies etc.
- Re use of waste water from RO plant by installing separate water tank
- By having soak pit (Soakta) for water from toilets and bathrooms.
- Ensure plumbing adequacy of water taps and sanitary fixtures. Construct water storage structures to meet campus water requirement & regular upkeep of water tanks in the building.
- Dedicated staff for maintenance of water system in the campus. Update periodic maintenance and repair of leaks.
